PROFESSIONAL SUMMARY

A pharmaceutical operations professional with 10+ years of hands-on experience in secondary packaging at Pfizer/Hospira Zagreb, where I've grown from Process Engineer to Production Coordinator — and occasionally stepped into acting department manager responsibilities.

My work sits at the intersection of GMP manufacturing, continuous improvement, and cross-functional leadership. I've served as site OPEX Lead following Lean Management implementation, and managed CAPA investigations for medical device combination products — all while keeping the production plan on track and the documentation airtight.

What sets me apart is that I don't stop at the operational layer. Over the past year I've been actively building capabilities in Python and AI-assisted workflows (Claude Code), and completed Google's Project Management and Data Analytics professional certificates. I'm genuinely excited about where pharma manufacturing is headed — less paper, more real-time data, smarter systems — and I want to be part of building that.

Open to connecting with people working at the intersection of pharmaceutical operations and digital transformation.

WORK EXPERIENCE

Production Coordinator

June 2019 – Present

Hospira Zagreb d.o.o. (Pfizer) — Secondary Packaging

- Acting department manager responsibilities during manager's absence
- Maintaining production plan adherence and cGMP quality standards
- Training and coaching employees on leadership and technical competencies
- Supervision and approval of production documentation and equipment records
- Proposing and implementing process improvements and cross-functional projects
- Coordination of production activities with planning and supply functions
- Driving continuous improvement via Operational Excellence and Lean Management (OPEX Lead)
- Creation and revision of Device Master Records and manufacturing documentation
- Change control initiation, impact assessment and approval
- MDCP CAPA investigations and corrective action management
- Participation in product and technology transfer projects
- Document Class Manager in electronic documentation system

Process Engineer

January 2015 – May 2019

Hospira Zagreb d.o.o. (Pfizer) — Secondary Packaging

- Secondary packaging of parenterals, vials and cytostatics
- Implementation of new procedures and equipment into manufacturing processes
- Core team member for serialization implementation project
- Participation in validation and qualification activities (FAT, SAT)
- Creation of new SOPs, employee training and revision of manufacturing documentation
- Change control management, CAPA management and review of executed batch records
- Supervision of employees during manufacturing operations

Quality Control Analyst

April 2014 – August 2014

Zagreb Brewery (Molson Coors)

- In-process and finished product QC of critical physical and chemical parameters
- Density, extract, ethanol, dissolved O₂, CO₂, pasteurization units, acid-base titration, microbiological analysis
- Employee training on analytical techniques and SOPs; laboratory documentation review

Process Engineer

December 2012 – September 2013

Jadran Galenski Laboratorij d.d. — Manufacturing (Semi-Solids)

- Organisation of manufacturing for semi-solid products (ointments, creams, gels, pastes, lotions)
- Creation of SOPs, employee training and lifecycle management of technical documentation
- Participation in process validation and review of executed batch records

Sales and Warehouse Specialist

March 2012 – November 2012

Orka Lab d.o.o.

- Procurement of raw materials and primary packaging; supplier management
- Customer communication, sales negotiation and outbound order preparation

KEY ACCOMPLISHMENTS

- Led introduction of 4 cartoning machines and 2 labelling machines into Secondary Packaging (URS, FAT, SAT, C&Q)
- Core team member for complete rearrangement and reconstruction of secondary packaging lines
- Secondary Packaging OPEX Lead following Lean Management implementation on site
- Participated in transfer of first medical device combination products to site
- Six Sigma Yellow Belt Certificate (Method 1 methodology)
- MDCP CAPA Investigator Certificate

PERSONAL PROJECTS

MaterialBook

Flask · SQLite · Bootstrap 5 · Unicorn

TPM App

Flask · PostgreSQL · PWA · Unicorn + Docker

PackLog

Flask · SQLite · Bootstrap 5 + Chart.js · PWA · Unicorn

CERTIFICATIONS & COURSES

- Google Project Management Professional Certificate (v2) (Nov 2025) — Google / Credly by Pearson
- Google Data Analytics Professional Certificate (v2) (Dec 2025) — Google / Credly by Pearson
- Python for Everybody (Mar 2026) — University of Michigan / Coursera
- MDCP CAPA Investigator Certificate — Pfizer internal

SKILLS & TOOLS

AI Tools	Claude · Claude Code · ChatGPT · GitHub Copilot
Data & Programming	Python · Claude Code
GMP & Regulatory	GMP manufacturing, CAPA, change control, validation/qualification (FAT, SAT, C&Q), medical device combination products, serialization
Electronic Systems	SAP, Veeva eQMS, TrackWise (QTS), MES, Amplexor EDMS, Generis EDMS (PDOCS), GDMS, ePALMS
Microsoft Office	Advanced – Word, Excel, PowerPoint, Outlook
Methodologies	Lean Management / OPEX, Six Sigma Yellow Belt, project management, continuous improvement
Languages	Croatian (native) English C1 – fluent written and oral
Other	Driver's license category B

EDUCATION

MSc in Bioprocess Engineering (mag. ing. bioproc.) (2002 – 2011)

Faculty of Food Technology and Biotechnology, University of Zagreb

Pharmaceutical Technician (1998 – 2002)

Medical and Chemical High School
